### ABSTRACT:

Platelets are produced from stem cells of bone marrow. If the number of platelets is excessively low, excessive haemorrhage can occur. Acute Thrombocytopenia is a condition which needs to be corrected as early as possible. In this pilot study Thrombocytopenic subjects irrespective of their other individual acute signs and symptoms for any condition are selected. They were given Homoeopathic medicine *Chininum Arsenicosum* 200 in potentised form in repetition.

Platelet count checked daily & improvement in count is observed with increased value.

**Key words:** Acute Thrombocytopenia, *Chininum Arsenicosum*, Platelet count.
