#### Abstract

**AIM:** To rehabilitate post covid mucormycosis maxillectomy using semi precesion attachment cast partial denture

#### **MATERIAL AND METHODOLOGY:**

A major difficulty for post mucormycosis rehabilitation is lack of retention due to poor alveolar ridge support. This clinical case report describes step by step procedure of prosthodontic rehabilitation following a partial maxillectomy for mucormycosis using a cast partial denture with Rhein 83 semi-precision attachments.

#### **KEY WORDS:**

Mucormycosis.

Cast partial denture.

Semi-precision attachment.

Rhein 83.

Rehabilitation.
