**Aim of the study:** To assess the Perception of corona vaccination among dental personnel of Andhra Pradesh among the practitioners, consultants, students and teachers.

**Materials and methods:** A questionnaire was made and uploaded in the form of google sheets. The survey was performed electronically for about one month, from April 1st, 2021, to May 1st, 2021. Finally, the results were obtained in the form of pie charts and were represented systematically by using Docs Editors software in google forms.

**Results:** A total of 200 members participated in the survey, out of which 66 percent of the people responded, and 34 percent of the people did not respond.

**Conclusion:** COVID-19 is a major health challenge throughout the world. The goal is for everyone to have access to a COVID-19 vaccine. Most of the dental personnel are well versed with the efficacy of vaccination.
