Abstract

Herbal drug play an important role in day today life. They were the only source of medicine in olden days. Even today herbs are equally important to modern drugs as they have fewer side effects when compared to synthetic drugs. Among so many herbs, Pattanga is a one such drug which has its own therapeutic value but less exposed. This drug have been mentioned in various classical texts. So this review exposed the information on vernacular names, morphology, drug classification, properties and therapeutic indications of Pattanga.

Keywords: Pattanga, Therapeutic indications.
