ABSTRACT

Agadatantra is a branch of Ayurveda which deals with the symptoms and treatment of various animal, plant, artificial and latent poisons. Bilwa having the botanical name *Aegle marmelos* coming under Rutaceae Family is an important drug in the medical field. Bilwa is used in various conditions and one among them is Vishachikitsa. Many studies have been conducted to prove its significance in the various ailments. Here I am mentioning the significance of the drug in Agadatantra perspective.

KEYWORDS: Agadatantra, Ayurveda, Bilwa, vishachikitsa.
