Abstract:

Dusparshakadi kashayam is an Ayuredic polyherbal formulation which contains five ingredients which are specifically indicated to *Arsas* (hemorrhoids), a common condition which affects about 4.4 % general population in the world and is having highest prevalence among all anorectal disorders. In addition the Yoga possesses Deepana, Pachana and Samgrahi property which gives versatility to the kashaya and make it effective in many other clinical presentations. This being a Tikta - Pacana yoga, it is used in arresting Srava, Bhinnasakrit etc. This article aims at reviewing the practical implication of Dusparshakadi kashaya yoga available in the market.
