### **ABSTRACT**

In recent years, there has been a growing interest in complementary and alternative medicine (CAM) and its integration with conventional medicine. This interest has led to the development of the Integrated Medicine Scheme, which aims to provide a more holistic approach to healthcare. The Integrated Medicine Scheme (IMS) is a program implemented by the Indian Ministry of AYUSH (Ayurveda, Yoga and Naturopathy, Unani, Siddha, and Homeopathy) to integrate traditional systems of medicine with modern medicine. The program was launched in 2010 and has been implemented in various states across the country.
