**ABSTRACT**

Diffuse Hair loss (DHL) is a very common problem noticed as hair fall being evident in the shower, on pillows, carpets, on brushed and thinning of scalp hair but not complete baldness, which leads to negative impact on the quality of life of the patients. A medically fit 31 years old female was diagnosed as a case of DHL, and treated with Unani drugs *Itrifal Kishneezi* and *Sufoof Gesu Daraaz* for 45 days. The outcome of the study was assessed with HSVS and DLQI scores before and after treatment, and the difference was significant clinically and statistically.

**Keywords:** Diffuse Hair loss, *Itrifal Kishneezi*, *Sufoof Gesu Daraaz*, HSVS, DLQI
